

INSTRUCTIONS FOR USE

Cockroach 100l Glue Traps

 kæferling æ

PREPARATION

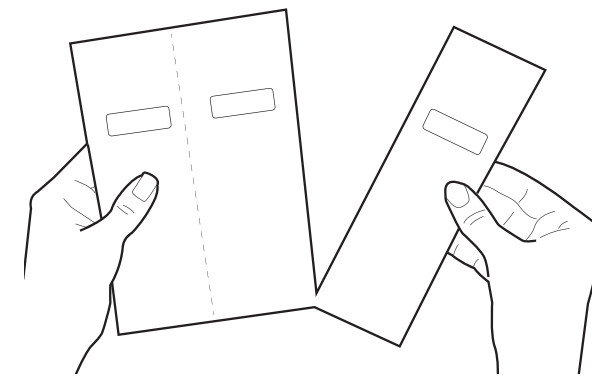

1. Unpack:

Carefully open the packaging and remove the cockroach traps.

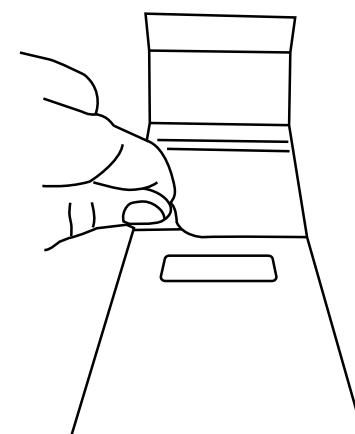

2. Separate:

The adhesive traps are supplied in sheets of 3. Carefully separate the adhesive traps from each other.

3. Activate:

Remove the protective film from the adhesive surface of the trap and fold the trap according to the crease lines.

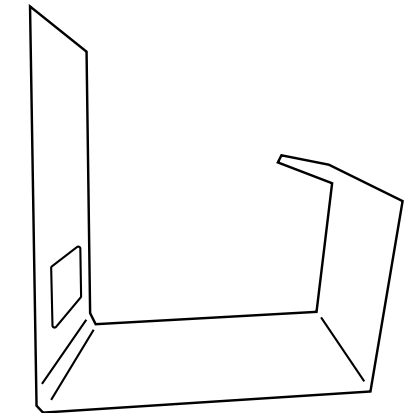

PLACEMENT OF THE TRAPS

4. Site selection:

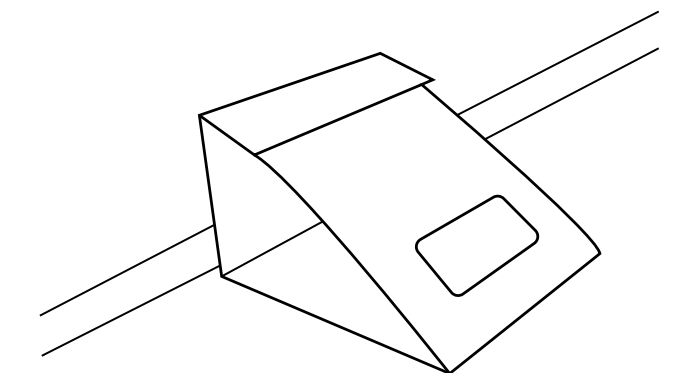

Select areas where you have frequently observed cockroaches.
Suitable locations include:

- Near kitchen appliances and cabinets
- Under sinks and near water pipes
- In corners and dark hiding places
- In pantries and storage rooms

5. Positioning:

- Place the traps folded or flat on the floor. Make sure that the traps are not blocked by household objects or furniture.
- The openings of the trap should point in the direction in which the cockroaches move. Place at least one sticky trap in each corner.
- For larger rooms, we recommend distributing the sticky traps along the long sides of the room.

Important:

Keep the area as dust-free as possible, otherwise the adhesive strength of the cockroach trap may deteriorate more quickly.

TIPS FOR USE

Regular monitoring:

Check the traps regularly, at least once a week, for captured cockroaches.

Changing the traps:

Replace traps as soon as they are full or when they lose stickiness.

SAFETY INSTRUCTIONS

- Avoid contact of the adhesive surface with skin and other sensitive surfaces.
- Keep the traps out of the reach of children and pets.

WASTE DISPOSAL

Dispose of used traps and their contents in accordance with local waste disposal regulations.
