

Instructions for use

Novokill Ghilotina

Contents of the package:

- Ghilotina Premium cockroach trap (100 % non-toxic)
- Bait tablets to attract cockroaches

Application:

1. **Open the packaging:** Open the packaging and remove the cockroach traps and the accompanying bait tablets.
2. **Prepare the trap:** Fold the trap according to the instructions on the back and place one bait tablet in the center of each trap.
3. **Site selection:** Select areas where cockroaches are common. Suitable locations are:
 - Near kitchen cabinets and appliances
 - Under sinks and near water sources
 - In dark corners and crevices

Make sure that the traps remain clean and dust-free so that the adhesive effect is maintained for a long time.

Also place the traps so that both entrances are accessible to cockroaches and are not covered by furniture or other items. The openings of the trap should point in the direction in which the cockroaches move. Place at least one glue trap in each corner. For larger rooms, we recommend distributing the glue traps along the long sides of the room additionally.

4. **Regular checks:** Check the traps regularly, at least once a week, to dispose of traps with trapped cockroaches and replace them if necessary.

Safety instructions:

- Avoid contact of the bait with skin and eyes.
- Keep out of the reach of children and pets.
- Wash your hands thoroughly after handling the traps.

Storage:

- Store the traps in a cool, dry place and protect them from direct sunlight and moisture.

Waste disposal:

- Dispose of the used traps in accordance with local waste disposal regulations.
